

**David L. Pelletier, PhD**

Professor of Nutrition Policy, Division of Nutritional Sciences, Cornell University

**Academic Background:**

<b>INSTITUTION</b>	<b>DEGREE</b>	<b>DATE</b>
University of Arizona	BS Biology	1977
University of Arizona	BA Anthropology	1977
Pennsylvania State University	MS Anthropology	1979
Pennsylvania State University	PhD Anthropology (nutrition minor)	1984

**Expertise/Academic Emphasis:**

My academic work is dedicated to the study and improvement of nutrition policy development and implementation. My approach to scholarship is problem-oriented, engaged and transdisciplinary. This approach allows me to seamlessly integrate my academic appointment: 35% research, 15% extension, 40% instruction and 10% advising.

**Professional Distinction, Demand and Leadership:**

- Recognized as one of the very few scholars studying the process of nutrition policy development and implementation.
- Participation in 45 invited expert committees, advisory panels and consultations for national and international policy organizations.
- Consistent participation in conferences and invitation-only high level meetings at national, regional and global levels, including 32 in the past five years
- Member of the writing team for the 2008 *Lancet* Nutrition Series; reviewer of three papers in the 2013 *Lancet* Nutrition Series; peer reviewer for the Global Nutrition Report in *The Lancet*;
- Past-member of the Executive Committee for the Global Nutrition Council of ASN; past-Chair of the Community and Public Health Nutrition RIS of ASN; member of the Executive Council of the Society for the Policy Sciences and, past-associate editor of the *Policy Sciences* journal.
- Associate editor of *Food Security: the Science, Sociology and Economics of Food Production and Access to Food* (2013-18);
- Founding Member of the Society for Implementation Science in Nutrition (2014) and first President (2015-18);
- PI for the African Nutrition Security Partnership Project, 2013-15: Two-year, \$1.2M project funded by UNICEF to apply and test complexity-grounded methods for improving multisectoral nutrition policy implementation in four Africa countries.
- PI for the Mainstreaming Nutrition Initiative, 2006-09: Three-year project funded by the World Bank to assist and study nutrition agenda setting, policy formulation and implementation in five countries.
- PI for Strengthening the Theory and Practice of IYCF Advocacy and Policy Change, 2015-17: Two year project funded by FHI360 based on experiences in seven East Asian and two African countries.
- Project Director for the Implementation Science Initiative in Kenya and Uganda, funded by the Bill and Melinda Gates Foundation and the International Initiative for Impact Evaluation, 2018-20.
- Global Health Advocacy and Policy Research Project (Jeremy Shiffman, PI), Three-year project funded by the Bill and Melinda Gates Foundation, involving researchers at American University and the Maxwell School of Syracuse University, to conduct a comparative study of the emergence and effectiveness of six global health actor networks

**Employment and Experience:****Professor of Nutrition Policy, 2016-present.**

Division of Nutritional Sciences, **Cornell University**. Conduct teaching, research and public engagement related to the development, implementation and evaluation of food and nutrition policy.

**Associate Professor of Nutrition Policy, 1993-2015.**

Division of Nutritional Sciences, **Cornell University**. Conduct teaching, research and public engagement related to the development, implementation and evaluation of food and nutrition policy.

**Senior Research Associate, 1990-93.**

Cornell Food and Nutrition Policy Program, **Cornell University**. Conducted international and domestic research on maternal and child nutrition interventions and policy, disseminated results to scientific and policy audiences, advised government institutions and international organizations, and developed a Cornell training program for planners and researchers from developing countries.

**Research Associate, 1985-90.**

Cornell Food and Nutrition Policy Program, **Cornell University**. Directed maternal and child nutritional surveillance activities and research while in residence in Malawi for 2 1/2 years. Collaborated with government departments, local university researchers and international agencies on the design and implementation of nutritional surveillance activities for the Government of Malawi. Conducted a three-year prospective study of the causes and consequences of maternal and child malnutrition. Supervised and assisted with surveillance work in Botswana, Kenya, Lesotho, Mauritius and Tanzania.

**Postdoctoral Associate, 1984-85.**

Cornell Nutritional Surveillance Program, **Cornell University**. Assisted the New York State Department of Health in developing a statewide nutritional surveillance system for formulating nutrition programs and policies for low income groups. Advised on the design and implementation of information systems, identification of relevant data sources, and development of methods for targeting nutrition programs by geographic area.

**Principal Investigator, 9/81 to 7/82.**

The Human Biology Program, Department of Anthropology, **The Pennsylvania State University**. Designed and conducted a study of the relationships between behavioral characteristics and biological risk factors for cardiovascular disease in Western Samoa. Developed and implemented protocols for measurement of dietary intake, physical activity, work performance, blood lipids and anthropometrics; designed protocols to measure household demographic, economic and subsistence characteristics. Performed all aspects of data processing, analysis and publication.

**NIGMS Trainee in Human Biology, 11/77 to 7/79.**

Department of Anthropology, **The Pennsylvania State University**. Obtained graduate training in human biology, nutrition, research design, and field methods. Conducted analysis of the maternal and nutritional influences on prenatal and infant growth in American Samoa. Participated in health, nutrition and socioeconomic survey work in Western Samoan villages.

### Recognition, Honors and Awards:

- Scaling Up Nutrition Global Gathering, Invited moderator: Functional Capacities for Governance of Multisectoral Nutrition Systems, November, 2014.
- Harvard School of Public Health, Invited lecture: *Complexity and Mode 2 Research in Nutrition Policy: From Theory to Strategy*. May 5, 2014.
- World Health Organization, Invited moderator for the global webinar on *What should countries do to reduce childhood stunting?* October 14, 2013.
- Human Biology Association, Invited plenary lecture on *Food and Nutrition Policy: A Biological Anthropologist's Experiences from an Academic Platform*, April 2013.
- UN Standing Committee on Nutrition, Invited discussant at *Meeting of the Minds On Nutrition Impact of Food Systems*. Geneva, Switzerland, March 25-18, 2013
- USAID Core Group, Invited Closing Address, *Call to Action to End Preventable Child Deaths: Challenges, Requirements and Roles of INGOs and USAID*. Oct 12, 2012.
- UNICEF/NY, Invited Discussant, Global Technical Meeting on Long-Term Consequences of Chronic Undernutrition in Early Life. August 2012.
- College of Human Ecology Alumnae Association, Outstanding Advising Award, 2009.
- Harold Lasswell Prize, from the Society for the Policy Sciences in recognition of the paper entitled *The Shaping of Collective Values through Deliberative Democracy: An Empirical Study from New York's North Country*. Policy Sciences 32:103-131, 1999.
- Dannon Institute Awards for Excellence, Honorable Mention for the North Country Project (Improving Food and Nutrition Security of Americans).
- Cornell Community and Rural Development Institute Innovator Award for research to develop a public policy education model for addressing community nutrition problems, November, 1995
- The National Institute of General Medical Sciences Traineeship, The Pennsylvania State University, 1977-79.
- Graduate School Fellowship, The Pennsylvania State University, 1977/78.
- Byron Cummings Scholarship, The University of Arizona, Department of Anthropology, 1976/77.

- USDA/CSREES, Research Grant to Cornell University (Division of Nutritional Sciences), co-funding to develop, implement and evaluate community-based approaches for improving food and nutrition security in counties from upstate New York. \$85,822 (direct costs), 10/94 to 9/99
- New York State Department of Health, Research Grant to Cornell University to study the effects of commercialism on children, analyze NHANES III dietary data, and develop a methodology for targeting emergency food assistance within the state. \$107,000 (direct costs), 7/95 to 6/96 the effectiveness of interventions to improve child growth and development.
- Cornell Agricultural Experimental Station, Hatch grant to study the formulation of nutrition policy at the federal level in the U.S. \$10,000 (direct costs), 7/95 to 6/96
- Cornell Agricultural Experimental Station, Hatch grant to study the dietary intake of users of nutrition supplements in the U.S.. \$10,000 (direct costs), 7/1/94 to 6/30/95
- New York State Department of Health, Research Grant to Cornell University for continuation of the Community-Based Nutrition Monitoring Project and diet-chronic disease project, \$105,194 (direct costs), 4/94 to 3/95
- New York State Department of Health, Research Grant to Cornell University to conduct analysis of policy issues related to diet and chronic disease. \$80,000 (direct costs) 4/93 to 3/94
- UNICEF, Research Grant to Cornell University for developing a generalizable methodology for estimating the contribution of malnutrition to child mortality in developing countries. \$11,338 (direct costs) 7/1/93 to 3/31/94
- USDA/CSRS, Research Grant to Cornell University (Division of Nutritional Sciences) to study implications of increased plant food consumption in the U.S.. Team member responsible for economic and demographic component. \$210,439 (direct costs) 10/92 to 9/94
- UNICEF, Research Grant to Cornell University for cleaning, documentation and archiving of data from the Malawi Maternal and Child Nutrition Study. \$20,000 (direct costs) 6/92 to 6/93
- UNICEF, Training Grant to Cornell University for a three-year training program in food and nutrition policy analysis and surveillance for professionals from developing countries - \$177,628 (direct costs) 5/91 to 6/94
- Carnegie Corporation of New York, Training Grant to University of Malawi (with Louis Msukwa) to support the establishment and training of a network of government and university analysts in Malawi to incorporate the results from the Malawi Maternal and Child Nutrition Study into policy and program planning. \$47,000 (direct costs) 4/91 to 6/92
- WHO, Technical Service Agreement to Cornell University for analysis of maternal anthropometric predictors of low birthweight and prematurity using data from the Malawi Maternal and Child Nutrition Study. \$12,273 (direct costs) 4/91 to 12/91
- UNICEF/Ethiopia, Training and Technical Assistance in Nutritional Surveillance; a project to train members of the National Technical Committee on Nutritional Surveillance, to develop a plan for the National Nutritional Surveillance System and to advise on the implementation of the plan. \$69,329 (direct costs) 6/90 to 6/93
- UNICEF, Grant to Cornell University to examine the validity of clinic-based nutritional surveillance data in Malawi. \$61,818 (direct costs) 12/90 to 12/91.
- New York State Department of Health, Grant to Cornell University to assist in the implementation of the New York State Child Growth Monitoring Project (With Cutberto Garza). \$28,070 (direct costs) 6/90 to 8/91

- Thrasher Research Fund, Grant to Cornell University to analyze the effects of maternal health and nutritional status on prenatal growth, infant growth and infant mortality using data from the Malawi Maternal and Child Nutrition Study. \$91,604 (direct costs) 10/90 to 8/92
- The Rockefeller Foundation, Research Grant to Cornell University to support analysis of child anthropometry-mortality relationships using data collected in Malawi. \$48,238 (direct costs) 6/89 to 6/92
- The Carnegie Corporation of New York, Institution Strengthening Grant to University of Malawi (with Louis Msukwa). \$253,000 (direct costs) 3/88 to 3/91
- The International Development Research Centre, Research Grant to University of Malawi (with Louis Msukwa) to continue the Malawi Maternal and Child Nutrition Study. \$160,000 (direct costs) 12/87 to 12/90
- Rockefeller Foundation, Research Grant to Cornell University to undertake a study of the relationships between child anthropometric indicators of nutritional status and risk of mortality, as a supplementary component of the Malawi Maternal and Child Nutrition Study. \$90,950 (direct costs) 3/87 to 3/90
- The World Health Organization, Research Grant to University of Malawi (with Louis Msukwa) to initiate the Malawi Maternal and Child Nutrition Study, a three-year longitudinal study in northern Malawi undertaken in collaboration with the University of Malawi. \$104,000 (direct costs) 12/85 to 12/87
- The National Science Foundation (Anthropology), Doctoral Dissertation Improvement Award - \$7,730 - 6/81 to 6/82
- The Wenner-Gren Foundation for Anthropological Research, Doctoral Dissertation Research - \$1,354 - 6/81 to 6/82
- The Hill Foundation for Anthropological Research, Doctoral Dissertation Research - \$3,890 - 6/81-82

### Teaching Experience:

- Instructor, Developed and implemented a capstone course on Explorations in Global Health for students in the global health minor (NS4600), Spring 2009-present.
- Instructor, Developed and implemented an introductory course Epidemiology in Context (NS3500), Spring 2009-2014.
- Instructor, Developed and implemented an upper-level course on Actors and Interests in Global Health, offered in the Cornell in Washington Program, 2008-9.
- Co-Instructor, Division of Nutritional Sciences, Co-developed and co-implemented the curriculum for a graduate course *Assessing Food and Nutrition in a Social Context*, (NS650), with Dr. Pelto, 1999-2006.
- Co-Instructor, Division of Nutritional Sciences, Co-developed and co-implemented the curriculum for a graduate course *Food and Nutrition Action in a Social Context*, (NS651), with Dr. Pelto, 1999-2002
- Co-Instructor, Division of Nutritional Sciences, Co-developed and co-implemented the curriculum for an upper-level undergraduate course on U.S. public health nutrition (NS450), with Dr. Rasmussen.
- Instructor, Division of Nutritional Sciences, Developed and implemented a course on the ethical, legal and social implications of genomics (NS453), taught at the Cornell-in-Washington Program, Fall and Spring, 2002/03.
- Instructor, Cornell Food and Nutrition Policy Program. Fall, 1990-1992. Developed curriculum, lectured, and guided instruction on principles, methods and case studies of nutritional epidemiology and surveillance, for developing country planners, university lecturers and Cornell graduate students in nutrition, agricultural economics, and related fields (NS 660:51)
