

Martha S. Field, Ph.D.
Assistant Professor
Division of Nutritional Sciences
Cornell University
113 Savage Hall
Ithaca, NY
mas246@cornell.edu

Education

Bachelor of Science in Chemistry 2000
Butler University, Indianapolis, IN

Ph.D in Biochemistry, Molecular and Cell Biology 2007
Cornell University, Ithaca, NY
Thesis Adviser: Patrick Stover

Postdoctoral Training

Postdoctoral Research Associate 2007-09
Cornell University, Ithaca, NY
Mentor: Patrick Stover

Academic Appointments and Research Activities

Lecturer 2015-2018
Division of Nutritional Sciences, Cornell University, Ithaca, NY

Research Associate 2010-2016
Division of Nutritional Sciences, Cornell University, Ithaca, NY

Senior Research Associate 2016-June 2018
Division of Nutritional Sciences, Cornell University, Ithaca, NY

Assistant Professor July 1, 2018 - present
Division of Nutritional Sciences, Cornell University, Ithaca, NY

Other Appointments

Department Safety Representative 2014-2018
Served as the university's primary contact and coordinator for laboratory safety issues (including use of biohazardous and radioactive materials) in the Division of Nutritional Sciences at Cornell University

Professional Development and Training

- Cornell Faculty Leadership Development Program, 2018
- WHO/Cochrane Institute, Cornell University, 2014
- Cornell Center for Technology Enterprise and Commercialization: Pre-Seed Workshop, Cornell University, 2013
- Effective Interactions in Organizations Workshop, Cornell University, 2006
- Trained in handling/use of radioactive materials, Cornell University, 2006
- Mouse handling and husbandry training, Cornell University, 2007
- Trained in handling/use of biohazardous materials, Cornell University, 2000

Scientific and Professional Societies

- American Society for Nutrition, 2013-present
- American Society for Biochemistry and Molecular Biology, 2012-present
- The American Association for the Advancement of Science, 2012-present

Professional Service

- Member of Leadership Team for American Society for Nutrition Vitamin and Minerals Research Interest Group, 2021-present
- NIH Early Career Reviewer, POMD study section, February 2021
- Member of NASEM Committee on Scanning for New Evidence on Riboflavin to Support a Dietary Reference Intake Review, 2020-2021
- Cornell University Faculty Senate Representative for the Division of Nutritional Sciences, 2019-2022
- Member of the Cornell University Radiation Safety Committee, Dec 2018-present
- Member of American Society for Nutrition Committee on Advocacy and Science Policy, July 2018-June 2021
- External Review Committee Member for Sackler Institute at the New York Academy of Sciences, September 2017
- Reviewer for the 2016 USDA/ODS John A. Milner fellowship program

Meetings Organized

- Co-organizer for First International Conference on Precision Nutrition and Metabolism in Public Health and Medicine, Chania, Crete, Greece, 2018
- Co-organizer for Precision Nutrition Cornell Intercampus Symposium, 2019

Invited Seminars

“Wheat flour fortification with iron for reducing anaemia and improving iron status in populations,” WHO Guideline Development Group meeting: *Fortification of wheat flour with vitamins and minerals in public health*, 2020.

“Metabolic causes and consequences of increased erythritol production from glucose,” Molecular Biology and Genetics Seminar, Cornell University, 2020.

“Novel activities of two human dehydrogenase enzymes affect glucose metabolism in a variant-specific manner,” Precision Nutrition Cornell Intercampus Symposium, 2019.

- “Evidence for mechanistic interaction between excess folate/folic acid vitamin B₁₂ interactions--insights from human and animal data,” NIH Workshop on Metabolic Interaction between excess Folates/Folic acid and Vitamin B₁₂ deficiency, National Institutes of Health, 2019.
- “Gene-nutrient interactions that lead to disease—a focus on folate and the nervous system,” Burke Neurological Institute, 2019.
- “Endogenous production of erythritol and its association with weight gain in young adults,” Memorial Sloan Kettering Cancer Center, 2018.
- “Endogenous production of erythritol and its association with weight gain in young adults,” First International Conference on Precision Nutrition and Metabolism in Public Health and Medicine, Chania, Crete, Greece, 2018.
- “Blood-Brain Barrier Dysfunction and Resulting Brain Nutrient Deficiencies,” Examining Special Nutritional Requirements in Disease States: A Workshop. National Academy of Sciences, Washington D.C., 2018.
- “Systems approaches to understanding metabolism,” Nutrition Obesity Research Center Seminar Series, University of Alabama, Birmingham, 2018.
- “Identification of a novel biomarker of weight gain”, 13th China Nutrition Science Congress, Shanghai, China 2017
- “The effect of folate on vitamin B₁₂ depletion-induced inhibition of nuclear thymidylate biosynthesis and neural tube defects”, 11th International Conference on Homocysteine and One-Carbon Metabolism, Aarhus, Denmark, 2017
- “Systems Understanding of the One-Carbon Metabolism Network” Braunschweig Biological Lectures, University of Braunschweig, Braunschweig, Germany, 2017
- “Vitamin B₁₂ deficiency perturbs nuclear one-carbon metabolism leading to genome instability,” 11th Structural Birth Defects Meeting, 2017.
- “Vitamin B₁₂ deficiency perturbs nuclear one-carbon metabolism leading to genome instability,” Aging, Inflammation, Metabolism, and Stress Seminar Series, Cornell University, 2017.
- “Effects of dietary nucleotides on folate-mediated one-carbon metabolism,” Folate Receptor Meeting, 2016.
- “Defining B Vitamin Requirements in Non-Healthy People,” FASEB Summer Conference: Folic Acid, Vitamin B₁₂ and One-Carbon Metabolism, 2016.
- “In search of a common pathway for folic acid-responsive neural tube defects, cancers and neurodegeneration” The Microsoft Research - University of Trento Centre for Computational and Systems Biology, Italy, 2016.
- “Determinants and consequences of uracil in DNA,” Aging, Inflammation, Metabolism, and Stress Seminar Series, Cornell University, 2015.
- “Biological mechanisms underlying the successes of folic acid fortification,” The Workshop: CRN’s Day of Science, Council for Responsible Nutrition, 2014
- “Determinants and consequences of uracil in DNA,” Division of Nutritional Sciences Field of Nutrition Seminar, Cornell University, 2014.

- “Determinants and physiological ramifications of uracil incorporation into DNA,” FASEB Summer Conference: Folic Acid, Vitamin B12 and One-Carbon Metabolism, 2014.
- “Folate-iron interactions in the heavy-chain ferritin knockout mouse,” Molecular and Human Nutrition Seminar Series, 2007.
- “Regulation of the 5-Formyltetrahydrofolate Futile Cycle and *DE NOVO* Purine Biosynthesis by 5,10-Methenyltetrahydrofolate Synthetase,” Dissertation Seminar, Cornell University, December 2006.
- “Methenyltetrahydrofolate synthase-mediated regulation of purine biosynthesis,” Molecular and Human Nutrition Seminar Series, 2006.

Research Support

2019 President's Council of Cornell Women Affinito-Stewart Grant \$10,000

Title: Novel methods to detect uracil misincorporation in mitochondrial DNA at near base-pair resolution

Role: Principal Investigator

Mentored Students and Scholars

Post-doctoral Research Associates

Joanna Fiddler, Cornell University, 2019-present

Graduate Students

Semira Ortiz, PhD candidate, Cornell University, 2018-present

Yuwen Xiu, PhD candidate, Cornell University, 2018-present

Kendra Tiani, PhD candidate, Cornell University, 2018-present

Katarina Heyden, PhD candidate, Cornell University, 2019-present

Undergraduate Students

Rodrigo Gutierrez, Cornell University, 2017-2019

Hannah Stein, Cornell University, 2017-2019

NaYeon Kim, Cornell University, 2018-2020

Allison MacDonald, Cornell University, summer 2019

Erica Rosario, CUNY Hunter College, summer 2019

Blake Antal, University of Binghamton, summer 2019

Amer Ahmed, Cornell University, 2019-present

Sanjna Das, Cornell University, 2019-2020

Vincent Lam, Cornell University, 2019-present

Angelina Wang, Cornell University, 2019-present

Karissa DiPierro, Cornell University, 2019-present

Peyton Carpen, Cornell University, 2019-present

Visiting Scholars

Lisa Schlicker, PhD, University of Braunschweig, Spring 2017 and February 2019

Editorial/Review

Edited Volumes

“Food biotechnology 2021,” *Current Opinion in Biotechnology*

“Precision Nutrition,” *Nutrition and Metabolism*

Editorial Boards

- Scientific Reports, 2019-present
- Nutrition and Metabolism, 2018-present
- Journal of Trace Elements in Medicine and Biology, 2013-present

Journals (ad hoc reviewer)

Journal of Nutrition, Nutrition Reviews, PLoS ONE, Journal of Trace Elements in Medicine and Biology, Environmental and Molecular Mutagenesis, American Journal of Clinical Nutrition, Trends in Cancer, Nutrients, Scientific Reports, Nucleic Acids Research, Proceedings of the National Academy of Sciences, Molecular Metabolism

Volunteer Organizations

Cornell MS Society, Faculty Advisor, 2017-present

Children’s Liturgy of the Word Instructor, St. Mary’s of the Lake, 2017-present

Schuyler County Little League, Tee Ball Coach, Spring 2015

Other Professional Experience

Graduate Research Assistant

2000- 2007

Cornell University, Ithaca, NY

- Investigated the effects of 5,10-methenyltetrahydrofolate synthetase (MTHFS) expression on folate-mediated one-carbon metabolism
- Performed comprehensive study of the determinants of MTHFS substrate and inhibitor binding affinity
- Identified MTHFS as a 10-formyltetrahydrofolate, the folate cofactor required for purine synthesis, tight-binding protein
- Determined that MTHFS expression enhances *de novo* purine biosynthesis *in vivo*

Intern, Lilly Research Laboratories

1999-2000

Eli Lilly, Indianapolis, IN

- Studied the transport properties of cell membrane β -lactam antibiotic and dipeptide transporters PepT1 and hpt-1 using cell culture models.
- Characterized the tissue-specific expression patterns of these transporters.

Teaching Experience

Cornell University, Ithaca, NY

2001-2015

- Instructor, Methods in Nutritional Sciences Laboratory (NS3320, 3 Credits)
- Teaching assistant for Introduction to Human Biochemistry (NS320), 2005.
Supervisor: Prof. Patrick Stover.

- Teaching assistant for Principles of Biochemistry: Proteins and Metabolism (BioBM331), 2001. Supervisor: Prof. Gerald Feigenson.
- Teaching assistant for Principles of Biochemistry: Molecular Biology (BioBM332), 2002. Supervisor: Prof. Bik Tye.

New York Chiropractic College, Seneca Falls, NY

2007

- Taught introductory macronutrient metabolism course as part of the Master's in Clinical Nutrition program.
- Designed curriculum which covered biochemistry of amino acid, carbohydrate and lipid metabolism and regulation thereof.

Butler University, Indianapolis, IN

1996-1999

- Organic chemistry laboratory assistant, 1998-1999. Supervisor: Prof. Carlson.
- Butler University Writers' Studio Tutor, Fall 1997-1999.

Patents

PCT International Application No. PCT/US12/34963, filed 25 April 2012, for USE OF URIDINE AND DEOXYURIDINE IN THE TREATMENT OF FOLATE-RESPONSIVE PATHOLOGIES, claiming priority of U.S. Provisional Application Serial Nos. 61/478,669, filed 25 April 2011, and 61/515,356, filed 5 August 2011 (Applicant: Cornell University) (Cornell Ref. 5476-03-PC) (Inventor: Patrick J. Stover and Martha S. Field)

PCT International Application No. PCT/US2017/040898, filed 06 July 2017, for STABLE PRO-VITAMIN DERIVATIVE COMPOUNDS, PHARMACEUTICAL AND DIETARY COMPOSITIONS, AND METHODS OF THEIR USE, claiming priority to U.S. Provisional Application Serial No. 62/359,040, filed 06 July 2016 (Applicant: Cornell University) (Cornell Reference No.: 7416-02-PC) (Inventors: Patrick J. Stover and Martha S. Field)
